**ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

As previously announced, effective in the first quarter of 2018, NN, Inc. (the “Company”) implemented a new enterprise and management structure designed to accelerate growth and further balance our portfolio by aligning our strategic assets and businesses. The Company’s businesses were reorganized into the Mobile Solutions, Power Solutions, and Life Sciences groups and are based principally on the end markets they serve. The Autocam Precision Components Group reported in our historical financial statements was renamed as the Mobile Solutions group. The Mobile Solutions group is focused on growth in the general industrial and automotive end markets. The Precision Engineered Products Group reported in our historical financial statements was bifurcated into two new groups – Power Solutions and Life Sciences. The Power Solutions group is focused on growth in the electrical and aerospace and defense end markets. The Life Sciences group is focused on growth in the medical end market.

This realignment has no impact on the Company’s historical consolidated balance sheet, statement of operations or cash flows. To provide historical information on a basis consistent with its new reporting structure, the Company has recast certain historical segment information in the attached Exhibit 99.1 for the years ended December 31, 2017 and 2016, as well as the quarterly periods in the years ended December 31, 2017. This information should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

The information furnished pursuant to this Item 2.02, including Exhibit 99.1, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”) or otherwise subject to the liabilities under that Section and shall not be deemed to be incorporated by reference into any filing of the Company under the Securities Act of 1933 or the Exchange Act.

- (1) Non-GAAP adjusted operating margin = Non-GAAP adjusted income from operations / GAAP net sales
- (a) Non-GAAP Adjusted income from operations, represents GAAP income from operations, adjusted to exclude the effects of restructuring and integration expense, non-operational charges related to acquisition, divestiture and integration costs, intangible amortization costs for fair value step-up in values related to acquisitions, and when applicable, our share of income from joint venture operations. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted income from operations, is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP income from operations.

(1) Non-GAAP adjusted operating margin = Non-GAAP adjusted income from operations / GAAP net sales

(a) Non-GAAP Adjusted income from operations, represents GAAP income from operations, adjusted to exclude the effects of restructuring and integration expense, non-operational charges related to acquisition, divestiture and integration costs, intangible amortization costs for fair value step-up in values related to acquisitions, and when applicable, our share of income from joint venture operations. We believe this presentation is commonly used by investors and professional research analysts in the valuation, comparison, rating and investment recommendations of companies in the industrial industry. We use this information for comparative purposes within the industry. Non-GAAP adjusted income from operations, is not a measure of financial performance under GAAP and should not be considered as a measure of liquidity or as an alternative to GAAP income from operations.
