Under Section 16(a) of the Securities Exchange Act of 1934, as amended, each of the Company's directors and executive officers, and any beneficial owner of more than 10% of the Common Stock, is required to file with the SEC initial reports of beneficial ownership of the Common Stock and reports of changes in beneficial ownership of the Common Stock. Such persons also are required by SEC regulations to furnish the Company with copies of all such reports.

Based solely on its review of the copies of such reports furnished to the Company for the year ended December 31, 2002, the Company is not aware of any instance of noncompliance with Section 16(a) by its directors, executive officers or owners of more than 10% of the Common Stock.

PROPOSAL I ELECTION OF DIRECTORS

The Company's Certificate of Incorporation provides for the division of the Board of Directors into three classes: Class I, Class II and Class III. Only one class of directors is elected at each annual meeting. Each director so elected serves for a three-year term and until his or her successor is elected and qualified, subject to such director's earlier death, resignation or removal.

Nominees

One Class I director will be elected to the Board of Directors at the Annual Meeting. The Company has nominated for election Roderick R. Baty, a current director of the Company. The nominee has indicated a willingness to continue to serve as a director if elected, but if Mr. Baty should decline or be unable to serve, the persons named as proxies intend to vote all shares in favor of the election of such other person who may be nominated as a replacement by the Board of Directors.

Richard D. Ennen has informed the Company that he does not wish to stand for re-election to the Board of Directors. As a result, the Governance Committee of The Board of Directors is currently conducting a search for an independent outside Director. In the interim, the Board has elected to reduce the overall size of the Board from seven to six members.

PROPOSAL II RATIFICATION AND APPROVAL OF NON-EMPLOYEE DIRECTOR STOCK OPTION GRANTS

Background

In 1998, 1999, 2000 and 2001, the Company's Board of Directors approved grants of certain nonqualified stock options to its members of the Board of Directors that are not employees of the Company. The Company's Board of Directors approved the grant of stock options on December 7, 1998, in the amount of 5,000 options to each of Messrs. Huff, Morris, Warshaw and Werner; on July 4, 1999, in the amount of 5,000 options to each of Messrs. Huff, Morris, Warshaw and Werner; on October 10, 2000, in the amount of 3,000 options to each of Messrs. Earsley, Huff, Morris, Warshaw and Werner; and on September 17, 2001, in the amount of 10,000 options to each of Messrs. Earsley, Huff, Morris, Warshaw and Werner (collectively, the "Options"). The exercise price of the Options equaled the closing price of NN's common stock on the respective dates of grant or the immediately preceding trading day on the Nasdaq Stock Market. The total number of Options that have been granted is 105,000.

The Company believes that the Options are an important component of non-employee director compensation and have helped attract and retain qualified directors. The Company believes that the Options promote the interests of the Company by aligning the interests of the non-employee directors with those of the Company's shareholders. This proposal will not increase the number of authorized shares currently approved in the Company's Stock Incentive Plan. Any

grants to non-employee Directors would be made subject to the availability of shares under the existing plan.

The Company is seeking shareholder ratification of such Option grants in order to comply with the Nasdaq Stock Market listing standards. If shareholder ratification of the options is not obtained, the Company will consider alternative compensation arrangements for its non-employee Directors. If the amendment to the Company's Stock Incentive Plan (the "Plan") (as described in Proposal III) is approved by the Company's shareholders, any future option grants to its non-employee directors will be made under the Plan.

Terms and Conditions of Options

The Options each have a term of ten years from the date of grant. All of the Options are currently exercisable and none has been exercised. The Options granted on December 7, 1998 vested in 1/3 increments over the three subsequent years, and became fully exercisable on December 7, 2001. The Options granted on July 4, 1999 vested and became fully exercisable on January 4, 2000. The Options granted on October 10, 2000 and September 17, 1999 vested and became fully exercisable on the first anniversary of such Options.

The Options may be exercised only by the respective grantees and may not be transferred by them in whole or in part, during their lifetime, and upon death, only by the grantee's designated beneficiary or, in the absence of such designation, by such person or persons who acquire such Options by bequest or inheritance.

If any grantee's service as a director terminates for any reason other than Retirement (defined as termination of service after completion of three years service as a director), Disability (as defined in the Company's Stock Incentive Plan) or death, such grantee's Options will continue to be exercisable for three months following termination of service. If any grantee's service as a director terminates because of Retirement or Disability, such grantee's Options shall continue to be exercisable for 12 months following termination of service. If any grantee's service as director terminates because of death, or if the grantee dies within twelve months of termination of service due to Retirement or Disability, such grantee's Options shall continue to be exercisable for 24 months following the grantee's death.

Tax Consequences of the Options

The grantees of the Options did not recognize any taxable income upon the granting of the Options to them and the Company was not entitled to a tax deduction by reason of the grant of the Options. Upon the exercise of any Option, the grantee will recognize ordinary taxable income equal to the excess of the then fair market value of the shares over the exercise price. The Company will be entitled to a tax deduction equal to the ordinary income recognized by the grantee. Upon disposition of the acquired shares, the difference between the sale prices and the grantee's basis in the shares will be treated as a capital gain or loss and generally will be characterized as long-term capital gain or loss if the shares have been held for more than one year at their disposition.

Required Vote

Ratification and approval of the Options requires the affirmative vote of the holders of a majority of the outstanding shares of the Company's Common Stock present in person or represented by proxy and entitled to vote at the meeting.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE RATIFICATION AND APPROVAL OF THE NON-EMPLOYEE DIRECTOR STOCK OPTION GRANTS

PROPOSAL III AMENDMENT TO THE COMPANY'S STOCK INCENTIVE PLAN

Background

The NN Inc. Stock Incentive Plan (the "Plan") was originally adopted March 2, 1994 and amended effective November 28, 2000 and September 13, 2001. The Company is seeking shareholder approval of an amendment to the Plan to permit members of the Board of Directors of the Company to be eligible to receive awards under the Plan.

The Plan has a ten-year term expiring March 2, 2004. Under the current Plan, the Company may grant incentive stock options, nonqualified stock options, stock appreciation rights, limited stock appreciation rights, restricted shares, and other stock-based awards (individually, an "Award") to officers and key employees of the Company. Currently, there are approximately 50 employees eligible to participate in the Plan. If the amendment is adopted, six non-employee directors will be eligible to participate in the Plan.

Reasons for the Amendment

The Board of Directors has granted 105,000 stock options to its non-employee directors since 1998. These grants have not been made pursuant to any plan, but have been governed by the terms of individual agreements. The proposed amendment would permit the Company's non-employee directors to participate in the Plan on a prospective basis and it is intended that all future grants of stock options to non-employee directors will be made pursuant to the amended Plan. Shareholder approval of this amendment is required to comply with the listing standards of the Nasdaq Stock Market. This proposal will not increase the number of authorized shares currently approved in the Plan. Any grants to non-employee Directors would be made subject to the availability of shares under the existing Plan.

Administration of the Plan

The Plan is administered by a Committee appointed by the Board of Directors (the "Committee"). The Committee has the authority to interpret the Plan, select the persons who will be granted Awards, determine the date of grant of each Award, the number, type, and terms and conditions of each Award. The Committee has the authority to adopt rules and regulations relating to the Plan. The Committee consists of two or more persons who satisfy the requirements for a "non-employee director" under Rule 16b-3 of the Securities Exchange Act of 1934, as amended and/or the requirements for an "outside director" under Section 162(m) of the Internal Revenue Code (the "Code").

Shares Subject to the Plan

As of April 15, 2003, there are 489,087 shares of Company common stock available for issuance under the Plan.

Stock Options

No option granted under the Plan may have a term of greater than ten years from the date of grant and the option price per share may not be less than the fair market value of a share of the Company's Common Stock on the date of grant. If the grantee's service for the Company is terminated for any reason other than retirement, disability or death, options vested on the date of termination may only be exercised within three months of termination. A grantee whose service terminates because of retirement or disability has only 12 months from the date of termination to exercise his or her vested options. If the grantee's service for the Company is terminated because of death, or if the grantee dies after termination but while an option is exercisable, options held on the date of death are exercisable only within 24 months of the death. An option granted under the Plan may be either (i) an incentive stock option that complies with Section 422(b) of the Internal Revenue Code (an "Incentive Stock Option") or (ii) a nonqualified stock option, which term encompasses any stock option that does not qualify as an Incentive Stock Option (a "Nonqualified Stock Option").

Stock Appreciation Rights

The Company may also award stock appreciation rights ("SARs") under the Plan. An SAR may be issued in tandem with a stock option, or it may be issued independent of a stock option. An SAR entitles the holder to receive, upon exercise, cash in an amount equal to the difference between the market price of a share of Common Stock and the exercise price of the SAR. The Committee may impose a prohibition on the exercise of SARs for such periods as it may determine is in the best interest of the Company. The right of a grantee to exercise a tandem SAR shall be cancelled if the shares subject to the SAR are purchased upon the exercise of the related option. A grantee's rights upon termination of service with regard to SARs are the same as a grantee's rights with regard to stock options under the Plan.

Restricted Shares

The Company may award restricted shares under the Plan. The Committee may determine the terms and conditions of each grant of restricted shares. To the extent required by law, the purchase price of a restricted share shall not be less than the par value per share of the Company's Common Stock on the date of grant. A grantee of a restricted share will have beneficial ownership of the shares, including the right to receive dividends and the right to vote. Restricted shares may not be transferred until the restrictions imposed by the Committee lapse or are removed. A grantee's rights to restricted shares terminate on his termination of employment with the Company, except as determined by the Committee.

Other Awards

The Company may grant other awards that are based on or related to the Company's Common Stock. Such awards may include phantom shares, performance units, or performance bonus awards.

Tax Consequences

Nonqualified Stock Options. The granting of a Nonqualified Stock Option to an individual is not ordinarily a taxable event. Upon exercise of the option, the grantee will recognize ordinary taxable income equal to the excess of the then fair market value of the shares over the exercise price. The Company will be entitled to a tax deduction equal to the ordinary income recognized by the grantee. Upon disposition of the acquired shares, the difference between the sale price and the grantee's basis in the shares will be treated as a capital gain or loss and generally will be characterized as long-term capital gain or loss if the shares have been held for more than one year at their disposition.

Incentive Stock Options. Neither the granting of an Incentive Stock Option nor its exercise are ordinarily a taxable event to the grantee. Instead, the grantee recognizes taxable income upon the sale of the acquired shares. The tax treatment to the grantee and the Company will depend primarily upon whether the grantee has met certain holding period requirements at the time he or she sells the shares. If a grantee exercises an Incentive Stock Option and does not dispose of the shares received within two years after the date such Option was granted or within one year after the transfer of the shares to him or her, any gain realized upon the disposition will be characterized as long-term capital gain. If the grantee disposes of the Incentive Stock Option shares either within two years after the date the option is granted or within one year after the exercise of the option and transfer of shares to him or her, such

disposition will be treated as a disqualifying disposition and an amount equal to the lesser of (1) the fair market value of the shares on the date of exercise minus the exercise price, or (2) the amount realized on the disposition minus the exercise price will be taxed as ordinary income to the grantee. The excess, if any, of the amount realized upon disposition over the fair market value at the time of the exercise of the option will be treated as long-term capital gain if the shares have been held for more than one year following the exercise of the option. Except in the case of the disqualifying disposition, there will be no federal income tax deductions allowed to the Company upon the grant, exercise or termination of an Incentive Stock Option.

Stock Appreciation Rights

The recipient of an SAR will not recognize any taxable income at the time the SAR is granted. Instead, the appreciation inherent in the SAR will be taxable as ordinary compensation income at the time it is received by the participant. If the participant receives the appreciation inherent in the SAR in stock rather than cash, the participant will recognize ordinary compensation income equal to the excess of the fair market value of the stock on the day it is received over any amounts paid by the participant, if any, for the stock.

With respect to SARs granted in tandem with stock options, if a holder elects to surrender the underlying option in exchange for cash or stock equal to the appreciation inherent in the underlying option, the tax consequences to the participant will be the same as those relating to freestanding SARs. If the participant elects to exercise the underlying option, the holder will be taxed at the time of exercise as if he or she had exercised a Nonqualified Stock Option (discussed above).

In general, there will be no federal income tax deduction allowed to the Company upon the grant or termination of any SAR. However, upon the exercise of an SAR, the Company will be entitled to a deduction for federal income tax purposes equal to the amount of ordinary income that the participant is required to recognize as a result of the exercise, provided that the deduction is not otherwise disallowed under the Code.

Restricted Shares

The recipient of restricted shares will recognize ordinary compensation income at the time the award is received equal to the excess, if any, of the fair market value of the stock received over the amount paid by the participant in exchange for the stock. If, however, the stock is subject to a substantial risk of forfeiture at the time of grant, (e.g., if the participant is required to work for a period of time before the stock becomes freely transferable), the participant generally will not recognize income until the restrictions on such shares lapse, at which time, the recipient will recognize ordinary compensation income equal to the excess, if any, of the fair market value of the stock on the date such restrictions lapse over any amount paid by the recipient in exchange for the stock. Upon the disposition of the shares, the difference between the sale price and the recipient's basis in the shares will be treated as a capital gain or loss and generally will be characterized as long-term capital gain or loss if the shares have been held for more than one year at the time of their disposition. In the year that the recipient of a restricted stock award recognizes ordinary taxable income in respect of such award, the Company will be entitled to a deduction for federal income tax purposes equal to the amount of ordinary income that the recipient is required to recognize, provided that the deduction is not otherwise disallowed under the Code.

Estimated Benefits

The number of awards that will be made to eligible participants pursuant to the Plan is within the discretion of the Committee and therefore is not currently determinable. To date, the following option awards have been made: Roderick R. Baty, Chairman, Chief Executive Officer and President - 301,300 shares; David L. Dyckman, Chief Financial Officer and Vice President - 111,000 shares; Frank T. Gentry III, Vice President, Manufacturing - 113,900 shares; Robert R. Sams, Vice President, Market Services - 70,600 shares; and William C. Kelly, Jr., Chief Administrative Officer, Secretary and Treasurer - 51,850 shares. To date, option awards to all current executive officers totaled 648,650 shares, none of which have been exercised. Option awards were granted in 1994 and 1996 to James Mitchell, former President and Chief Operating Officer of the Company totaling 553,635 shares of which 508,635 were exercised and 45,000 forfeited. To date, option awards to all current employees (excluding current executive officers) totaled 1,207,263 shares of which 134,476 have been exercised. No SARs or restricted shares have been granted under the Plan.

Required Vote

Approval of the amendment requires the affirmative vote of the holders of a majority of the outstanding shares of Common Stock present in person or represented by proxy and entitled to vote at the meeting.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S STOCK INCENTIVE PLAN.

**PROPOSAL IV
RATIFICATION OF SELECTION OF AUDITORS**

The firm of KPMG LLP has been selected by the Audit Committee of the Board of Directors as the Company's outside auditors for 2003. Although it is not required to do so, the Board has determined that it is desirable to seek shareholders' ratification of the selection of KPMG LLP. If the shareholders should not ratify the appointment of KPMG LLP, the Audit Committee will reconsider the appointment.

A representative of KPMG LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement, if he or she so desires, and will be available to respond to appropriate questions.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THIS PROPOSAL.

In accordance with its written charter adopted by the Board of Directors, the Audit Committee assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of the Company. Management has responsibility for preparation of the Company's financial statements and the independent auditors have responsibility for the examination of those statements. Each of the members of the Audit Committee meets the independence requirements of the NASDAQ Stock Market.

The Audit Committee has reviewed and discussed with the Company's management and KPMG LLP, the Company's independent auditor, the audited financial statements of the Company for 2002; has discussed with KPMG LLP matters required to be discussed by Statement on Auditing Standards No. 61; has received from the independent auditors the written disclosures and letter required by Independence Standards No. 1; and has discussed with the independent auditor the auditor's independence, including whether KPMG LLP's provision of non-audit services to the Company was compatible with maintaining KPMG LLP's independence. REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors is responsible for the oversight of the Company's compensation policies. The membership of the Compensation Committee during 2002 consisted of G. Ronald Morris, Michael E. Werner, Steven T. Warshaw and James L. Earsley. The report of the Committee on executive officer compensation for 2002 is set forth below.

Compensation Principles

The goal of the Company is to structure its compensation arrangements for executive officers in a manner that will promote the Company's profitability and enhance shareholder value. In designing its compensation arrangements to achieve this goal, the Company is guided by the following objectives:

- o attracting and retaining qualified and dedicated executives who are essential to the long-term success of the Company;
- o providing compensation packages that are competitive with the compensation arrangements offered by comparable companies, including the Company's competitors;
- o tying a significant portion of an executive officer's compensation to the Company's and the individual's performance; and
- o directly aligning the interests of management with the interests of the shareholders through stock-based compensation arrangements.

In 2002, the components of the Company's executive compensation arrangements consisted of salary, cash bonus and stock option award opportunities pursuant to the Stock Incentive Plan.

Executive Officer Compensation

As a general matter, the Company believes the interests of the Company and its shareholders are best served by developing and maintaining compensation policies that are consistent and market competitive with peer group industrial companies. The Company therefore periodically conducts peer group benchmarking of public industrial companies and utilizes this information to aid in establishing a competitive compensation program for the company. The following criteria are utilized as a basis for this program: performance (revenue growth, EPS growth, return on net assets, return on equity, and total shareholder return), executive pay, annual incentive/bonus, benefits, and stock incentive awards.

The current executive compensation structure includes a formal salary grade structure that establishes five levels of executive compensation within the Company. Base salary ranges (low, mid and high) are established for each salary grade. In addition, a formal annual incentive bonus plan includes threshold, target, and maximum awards based upon pre-established financial performance criteria.

Salary

The salary levels for the Company's executive officers and managers are reviewed and determined biannually. Adjustments to executive officer compensation in 2002 were evaluated based upon the individual's and Company's performance within the framework of the Company's formal compensation policies.

Annual Bonus

Annual bonuses are based solely on a formalized plan. Bonus payments are contingent upon achieving pre-established net income goals for each operating business unit and the total company. The bonuses paid to named executive officers for 2002 are set forth in the Summary Compensation Table.

Stock Incentive Plan

Prior to its initial public offering in 1994, the Company adopted the Stock Incentive Plan under which 1,125,000 shares of the Company's common stock have been reserved for issuance to executive officers and other key employees, as determined by the Compensation Committee. The Stock Incentive Plan has been

amended over time to increase the number of shares available for issuance pursuant to awards made under the plan to 2,450,000.

Stock option grants to the Company's executive officers and managers are generally reviewed and determined biannually by the Compensation Committee. With respect to options awarded, the committee utilizes a structure based upon the following: recommendations from the independent compensation review, Mr. Baty's recommendations (other than himself), and rewards to such officers and other key employees for superior performance and to provide financial incentives for such officers and employees to continue to perform in a superior manner. The Company awarded 37,000 options to key employees during 2002. No options were awarded to executive officers during 2002.

Compensation of the Chief Executive Officer

The Company's decisions regarding compensation of its Chief Executive Officer are guided by the same policies and considerations that govern compensation of the Company's other executive officers. Mr. Baty's salary was set at a level that the Committee determined was appropriate on the basis of the following factors: 1) The Company's overall performance. 2) Mr. Baty's individual performance. 3) The competitiveness of Mr. Baty's salary in comparison to similar industrial companies.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, precludes any public corporation from taking a deduction for compensation in excess of \$1 million paid to its chief executive officer or any of its other executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. No formal policy has been adopted by the Company with respect to minimizing the risk that compensation paid to its executive officers will exceed the deduction limit. The Company does not anticipate that any compensation paid to its executive officers in 2002 will exceed the limit imposed by Section 162(m).

APPENDIX TO PROXY STATEMENT

AMENDMENT NO. 3
TO
NN, INC.
STOCK INCENTIVE PLAN

As adopted by the Board of Directors on March 6, 2003, and subject to approval by the stockholders of the Company as required in Section 23 of the Stock Incentive Plan, the NN, Inc. Stock Incentive Plan is hereby amended as follows:

Article 1 of the Plan is amended and restated in its entirety as follows:

"1. PURPOSE

The NN, Inc. Stock Incentive Plan (the "Plan") is designed to enable directors, officers and key employees of NN, Inc. (the "Company") to acquire or increase a proprietary interest in the Company, and thus to share in the future success of the Company's business. Accordingly, the Plan is intended as a means of attracting and retaining directors, officers and key employees of outstanding ability and or increasing the identity of interests between them and the Company's shareholders, by providing an incentive to perform in a superior manner and rewarding such performance. Because the individuals eligible to receive Awards under the Plan will be those who are in positions to make important and direct contributions to the success of the Company, the directors believe that the grant of Awards will advance the interests of the Company and the shareholders."

Article 5(c) of the Plan is amended and restated in its entirety as follows:

"(c) The powers of the Committee shall include plenary authority to interpret the Plan. Subject to the provisions of the Plan, the Committee shall have the authority, in its sole discretion, from time to time: (1) to select the directors, officers and key employees to whom Awards shall be granted; (2) to determine the date on which each Award shall be granted; (3) to prescribe the number of Shares subject to each Award; (4) to determine the type of each Award; (5) to determine the term of each Award; (6) to determine the periods during which Awards may be exercised and the restrictions and limitations upon exercise of Awards or the receipt of Shares, other property or cash thereunder; (7) to prescribe any performance criteria pursuant to which Awards may be granted or may become exercisable or payable; (8) to prescribe any limitations, restrictions or conditions on any Award; (9) to prescribe the provisions of each Agreement, which shall not be inconsistent with the terms of the Plan; (10) to adopt, amend and rescind rules and regulations relating to the Plan; and (11) to make all other determinations and take all other actions that are necessary or advisable for the implementation and administration of the Plan."

Article 6(a) of the Plan is amended and restated in its entirety as follows:

"(a) Awards may be granted under the Plan to directors, officers and key employees of the Company or any Subsidiary. All determinations by the Committee as to the individuals to whom Awards shall be granted hereunder shall be conclusive."

Article 6(b) of the Plan is deleted in its entirety.

Except as expressly amended by the Board of Directors, subject to approval by the stockholders, the NN, Inc. Stock Incentive Plan is hereby ratified and confirmed in all respects.

IN WITNESS WHEREOF, NN, Inc., acting by and through its officer hereunto duly authorized has executed this Amendment as of the 6th day of March, 2003.
